1. Qualitative information on quarterly consolidated financial results

(1) Explanation of operating results

Under the mission of "Turning encounters into innovation" and the vision of "Become business infrastructure," the Group is developing services tied to solving various issues that companies and business people face by using new approaches that combine "technology and data-input-based business card digitization systems" with "cloud software."

In the first nine months of the fiscal year ending May 31, 2021, the Group engaged in initiatives such as strengthening the sales structure, including human resources, in order to realize continuous growth of net sales. Furthermore, the Group promoted the expanded use of the "Virtual Cards" function usable within "Sansan," a B2B business card-based contact management service and "Eight," a business card management app. Additionally, we focused on the launch of "Bill One," an online invoice receiving solution.

As a result, net sales totaled \(\frac{\pmath{\text{\text{4}}11,753,209}{\pmath{\text{thousand}}}\) (up 21.5% year on year) in the period under review, and despite a slight negative effect from the declaration of a state of emergency issued in some areas of Japan in January 2021, results were overall solid. Gross profit totaled \(\frac{\pmath{\text{\text{4}}10,321,127}}{\pmath{\text{thousand}}}\) (up 24.1% year on year), and gross profit margin was 87.8% (up 1.8 points year on year). All profit items following operating profit improved due to the large improvement in profit margin following increased net sales, despite an increase in advertising expenses and personnel expenses associated with the implementation of aggressive growth strategies. Operating profit was \(\frac{\pmath{\text{\text{4}}823,156}}{\pmath{\text{thousand}}}\) (up 324.5% year on year), ordinary profit was \(\frac{\pmath{\text{\text{4}}479,331}}{\pmath{\text{thousand}}}\) (up 490.4% year on year), and profit attributable to owners of parent was \(\frac{\pmath{\text{\text{4}}43,870}}{\pmath{\text{thousand}}}\) (compared to loss attributable to owners of parent of \(\frac{\pmath{\text{\text{4}}94,154}}{\pmath{\text{thousand}}}\) in the same period of the previous fiscal year).

Results by segment are as follows.

Our services of each business, our business models, our competitive advantages, etc. are described on the following IR section of the Company's website. Please refer to the URL below for details.

IR section (description of Business Information): https://ir.corp-sansan.com/en/ir/management/businessinformation.html

(i) Sansan Business

The Company is developing services in the B2B business card management service market. As the Company has grown, this market has seen 18-fold expansion from 2010 to 2018. The Sansan Business, operated by the Company, holds an 83.5% share (Note 1.) in this market. Moreover, further expansion of the size of this market is continuing, which is mainly a result of recent changes to employee working styles like remote work due to the spread of COVID-19, new ways of thinking toward digital transformation, and greater attention being attracted to the SaaS (Software as a Service) products. As for the digital transformation market, its worth in 2030 is forecasted to be \(\frac{x}{3}\),042.5 billion (an increase of \(\frac{x}{2}\),251.3 billion since 2019) (Note 2.), while the SaaS market in Japan is forecasted to reach \(\frac{x}{1}\),117.8 billion by 2024 (an increase of \(\frac{x}{5}\)16.2 billion since 2019) (Note 3.).

For the period under review, the Company continued to engage in initiatives, such as strengthening the sales structure through strategic hiring and expanding use of "Virtual Cards" function, aimed at further increasing the number of subscriptions and the monthly sales per subscription for "Sansan." While the spread of COVID-19 negatively affected the acquisition of new subscriptions, we succeeded in enhancing our sales system and steadily acquired new customers among major manufacturers and medium to small enterprises. As a result, the number of "Sansan" subscriptions at the end of the period under review increased steadily to 7,523, up 14.2% year on year. In addition, monthly sales per subscription rose only slightly to \mathbb{1}67 thousand, up 2.5% year on year due to sluggishness in some sales comprised of fees for the service of providing "Sansan" during the initial adoption period as a result of the effect of COVID-19. Furthermore, as a result of carrying out ongoing initiatives to expand use among existing customers to achieve a stronger

customer foundation, the average monthly churn rate over the past 12 months (Note 4.) was 0.67% (an increase of 0.11 points year on year), maintaining a low churn rate of below 1% despite COVID-19 pandemic.

As a result, net sales totaled \$10,651,094 thousand (up 19.3% year on year), of which recurring net sales (fixed revenue) in "Sansan" totaled \$10,100,598 thousand (up 24.6% year on year) in the period under review. Segment profit totaled \$4,528,774 thousand (up 40.0% year on year).

(ii) Eight Business

In the Eight Business, the Company bases the business on the business card management app "Eight" that enables users to use the profile management and business card management features at no cost. On top of this, the Company provides the B2C services, "Eight Premium," for individuals who want access to extra user functions and the B2B services such as "Eight Company Premium," a service that allows the sharing of business cards registered on "Eight" within a company, "Eight Ads," a service that enables advertisements to be disseminated to "Eight" users, "Meets," a business event that increases productivity by efficiently matching buyers and sellers, and "Eight Career Design," a recruitment related service that enables hiring companies (corporate client users) to approach job seekers (individual users) on the job search platform.

In the period under review, the Company worked on strengthening monetization of the B2B service through "Eight Company Premium" and other methods. As a result, the number of "Eight Company Premium" subscriptions at the end of the period under review totaled 2,132, an increase of 57.5% year on year. The number of "Eight" users (Note 5.) totaled 2.86 million, an increase of 0.2 million year on year. Additionally, results from our consolidated subsidiary logmi, Inc. ("logmi") began to contribute to results in September 2020 (recorded in the segment's B2B services sales).

As a result, net sales for the period under review totaled \(\frac{\pmathbf{\frac{4}}}{1,104,415}\) thousand (up 49.1% year on year), of which net sales from B2C services totaled \(\frac{\pmathbf{\frac{22}}}{221,820}\) thousand (up 1.9% year on year), and net sales from B2B services totaled \(\frac{\pmathbf{\frac{482}}}{882,595}\) thousand (up 68.8% year on year). Segment loss was recorded at \(\frac{\pmathbf{\frac{5}}}{38,710}\) thousand (compared to segment loss of \(\frac{\pmathbf{\frac{4715}}}{715,289}\) thousand in the same period of the previous fiscal year) due to being in the phase in which upfront investments were being made to increase future profitability.

Note: 5. Number of confirmed users who registered their business card to their profile after downloading the application

Net sales and part of cost of sales related to "Bill One", the online invoice receiving solution launched in May 2020, are allocated to each segment based on internally established rules, while the rest of cost of sales and all selling, general and administrative expenses are recorded as corporate expenses that are not allocated to each segment.

In the period under review, the number of subscriptions grew steadily by 86.5% compared to the end of the previous quarter as a result of strengthening the sales structure and advertising activities centered on TV commercials to realize the growth of "Bill One." Going forward, we aim to have more than 1,000 subscriptions by the end of the fiscal year ending May 31, 2022 by promoting human resource recruitment, advertising activities, and service improvements, etc.

This was primarily due to a decrease of \(\frac{\pma}{2}\)2,154,945 thousand in cash and deposits, a decrease of \(\frac{\pma}{9}\)30,823 thousand in investment securities, an increase of \(\frac{\pma}{1}\)190,680 thousand in goodwill recorded as a result of making logmi a subsidiary through the acquisition of its shares, and an increase of \(\frac{\pma}{1}\)105,981 thousand in deferred tax assets.

This was primarily due to a decrease of ¥2,744,750 thousand in long-term borrowings, a decrease of ¥588,044 thousand in advances received from receiving a lump-sum payment of contract term fees from customers, and an increase of ¥489,015 thousand in accounts payable - other.

Net assets

Net assets at the end of the quarter under review were \(\frac{\pmathbf{\text{\text{413,870}}}{1,091,426}}\) thousand, up \(\frac{\pmathbf{\text{\text{\text{413,870}}}}{1,091,426}}{1,091,426} thousand, up \(\frac{\pmathbf{\text{\text{\text{413,870}}}}{1,091,426}}{1,091,426} thousand, up \(\frac{\pmathbf{\text{\text{413,870}}}}{1,091,426}}\) thousand in retained earnings due to recording of profit attributable to owners of parent.

(3) Explanation of consolidated earnings forecasts and other forward-looking statements

Although operating profit for the first nine months of the fiscal year ending May 31, 2021 has already exceeded the lower limit of the forecasts range, the full-year earnings forecasts announced at the beginning of the fiscal year remain unchanged, as we plan to consider and implement investments to achieve medium- to long-term growth in the fourth quarter.
