The maximum amount of liability for damages under this agreement is the minimum liability amount provided for under laws and regulations.
5. The Company has entered into indemnification agreements with Maki Suzuki and Tsunehiro Shirota as stipulated in Article 430-2, paragraph (1) of the Companies Act, and a summary of the contents of the agreements is provided in "2. Status of the Company, (3) Officers, (iii) Summary of details of indemnification agreements" of the Business Report. 6. The Company has entered into a directors and officers liability insurance policy as stipulated in Article 430-3, paragraph (1) of the Companies Act with an insurance company, and a summary of the contents of the policy is provided in "2. Status of the Company, (3) Officers, (iv) Summary of details of directors and officers liability insurance policy" of the Business Report. The scope of the insured includes Directors (excluding those who are Audit & Supervisory Committee Members), Directors who are Audit & Supervisory Committee Members, Executive Officers, and Directors of subsidiaries of the Company. - (Notes)
1. There is no special interest between the candidate and the Company.
  2. Shigemiki Komori is a candidate for outside Director.
  3. If Proposal No. 2 is approved and adopted as originally proposed, Shigemiki Komori will assume the position of Director who is not an Audit & Supervisory Committee Member. However, in the event of failing to meet the minimum number of Directors who are Audit & Supervisory Committee Members required by laws and regulations, he will resign the position of Director who is not an Audit & Supervisory Committee Member and assume the position of Director who is an Audit & Supervisory Committee Member.
  4. Reasons for nomination as a candidate for a substitute outside Director who is an Audit & Supervisory Committee Member and outline of his expected roles  

Shigemiki Komori held key executive positions, including representative director, at the Japanese subsidiaries of multiple global IT companies. He possesses extensive experience in sales strategy, organizational management, and the promotion of sales digital transformation (DX) in the enterprise business and the software business, as well as broad insight through these experiences. The Company has selected him as a candidate for a substitute outside Director who is an Audit & Supervisory Committee Member in anticipation that he will provide important opinions on sales strategies and organizational operation to the Company's management as well as audit and supervise the Directors' performance of their duties. His term of office as outside Director of the Company will be one year upon the conclusion of this Shareholders Meeting.
  5. The Company has entered into an agreement with each Director (excluding those who are Executive Directors or serve in any other similar position) to limit his/her liability for damages under Article 423, paragraph (1) of the Companies Act. Upon assumption as Director who is an Audit & Supervisory Committee Member, the Company will renew said agreement. The maximum amount of liability for damages under this agreement is the minimum liability amount provided for under laws and regulations.
  6. The Company has entered into an indemnification agreement with each Director as stipulated in Article 430-2, paragraph (1) of the Companies Act, and a summary of the contents of the agreements is provided in "2. Status of the Company, (3) Officers, (iii) Summary of details of indemnification agreements" of the Business Report. Upon assumption as Director who is an Audit & Supervisory Committee Member, the Company will renew said agreement.

7. The Company has entered into a directors and officers liability insurance policy as stipulated in Article 430-3, paragraph (1) of the Companies Act with an insurance company, and a summary of the contents of the policy is provided in “2. Status of the Company, (3) Officers, (iv) Summary of details of directors and officers liability insurance policy” of the Business Report. The scope of the insured includes Directors (excluding those who are Audit & Supervisory Committee Members), Directors who are Audit & Supervisory Committee Members, Executive Officers, and Directors of subsidiaries of the Company. He will continue to be included as an insured upon assumption as Director who is an Audit & Supervisory Committee Member. The Company plans to renew said policy at the end of the current policy period.
8. The Company has submitted notification to the Tokyo Stock Exchange that Shigemiki Komori has been designated as independent officer as provided for by the aforementioned exchange. The Company has entered into a consulting agreement for sales strategy with KRM Corporation, where Shigemiki Komori serves as Representative Director. However, the annual amount of compensation is less than ¥5 million, which falls within a range where no conflict of interest with general shareholders may arise. Accordingly, the Company has determined that there are no concerns over his independence as outside Director. If Proposal No. 2 is approved and adopted as originally proposed, the Company plans to appoint him as independent officer as provided for by the Tokyo Stock Exchange. Upon assumption as outside Director who is an Audit & Supervisory Committee Member, the Company plans for him to continue as independent officer.

# **Business Report**

(From June 1, 2025 to May 31, 2026)

## **1. Status of the corporate group**

### **(1) Status of operations for the fiscal year under review**

#### **(i) Progress and results of operations**

Under the mission of “Turning encounters into innovation” and the vision of “Become business infrastructure,” the Company group (the “Group”) provides AI transformation (AX) solutions that reshape how people work. By combining cloud software with technology and human-powered operations, the Group accurately digitizes unstructured and analog information generated from corporate activities—such as business cards, invoices, and contracts—thereby enabling greater efficiency in business processes and more advanced utilization of data.

As the use of AI continues to advance, the creation of significant value through generative AI requires structured and normalized data that is linked to each company’s unique business activities. The Group has defined its business domain as AX in order to more clearly articulate the value of evolving the very nature of business processes and data structures themselves, with AI utilization in mind. The Group aims to provide not only improvements in productivity, but also value as a data infrastructure that continuously supports the use of AI.

In terms of the market environment, amid the continued global expansion of AI-related investments, the global market for business process transformation utilizing AI is expected to grow from approximately USD0.4 trillion in 2025 to approximately USD1.7 trillion by 2030 (Note 1). In Japan as well, corporate demand for improving and enhancing business processes through the use of AI continues to rise, and the AI systems market is forecast to expand from ¥1.3 trillion in 2024 to ¥4.1 trillion by 2029 (Note 2).

Under these market conditions, Sansan, a sales AX solution, holds a market share of 85.8% in the B2B business card management service market (Note 3), and this market has expanded by approximately 21 times between 2013 and 2024. In addition, Bill One, an accounting AX solution, has captured the number one market share in terms of net sales in the online invoice receiving solution market (Note 4). Even in FY2024, when demand related to compliance with the invoicing system and revisions to the Electronic Bookkeeping Act had largely run its course, the market continued to demonstrate strong growth, recording a year-on-year increase of 52.4%.

Consolidated financial results for the fiscal year ended May 31, 2026 (the “fiscal year under review”) are as follows.

#### **(4) Issues to be addressed**

As its corporate philosophy, the Group has established its mission of “Turning encounters into innovation” and its vision to “Become business infrastructure.” Towards the realization of this mission and vision, we are developing AX solutions that will connect encounters between people and companies to business opportunities, and which will change working styles.

We have set out our medium-term financial policy of achieving both consistent, solid growth in sales and growth in profit for the period of the 20th term (the fiscal year ending May 31, 2027) through the 22nd term (the fiscal year ending May 31, 2029). For net sales, which is the most important management indicator, we have established a policy of achieving an average annual growth rate of 16% to 20% over the said period. For adjusted operating profit, which has been adopted as a key profit indicator, we have set a policy of achieving profit margin of 25% to 30% for the 22nd term (the fiscal year ending May 31, 2029) by ensuring continued high growth while making investments for sales growth.

The major management issues and issues to be addressed as identified by the Company to realize the mission and vision are outlined below.

##### **(i) Growth of the Sansan/Bill One Business**

Sansan, Bill One, and Contract One are services that target a wide range of companies regardless of industry or business category, and there remains significant potential for further customer acquisition. With respect to each service, we aim for further growth by enhancing AI-generated features with a view to expand the value we will provide, while also promoting the acquisition of new customers and encouraging greater utilization among existing customers through strengthening our sales infrastructure.

##### **(ii) Growth of the Eight Business**

We aim for further growth by leveraging the Eight network, which has a large number of registered users, to strengthen monetization of B2B services such as business events and recruitment-related services.

##### **(iii) Utilization of M&A**

We will work to create synergies by promoting measures to increase the corporate value of each Group company while effectively utilizing the Group’s resources and know-how. In addition, we have positioned the use of M&A as one of our important growth strategies and will continue to actively consider this option.

##### **(iv) Recruiting and training outstanding talent and ensuring diversity**

For the Group to achieve sustainable growth, it is crucial that we hire talented professionals with diverse career backgrounds, and then improve our sales, development and managerial structures. We will strive to ensure diversity of our people while establishing work environments and arrangements that substantially fuel employee motivation for talented professionals who share an understanding of the Group’s corporate philosophy and business activities. Taking into account an environmental change driven by the rapid adoption of generative AI, we have positioned AI-driven organization development as a key management strategy and have been promoting AI utilization and human resource strategy in tandem.

##### **(v) Continuous strengthening of the management system against security risks**

Given that the Group handles substantial volumes of important information assets such as personal information through services we provide, it is crucial that we continuously strengthen our system for managing information. We continue to take the utmost care to safeguard information with measures including strict management of information assets based on our Information Security Policy and Policy on Personal Information Protection. In addition, taking

into account the rapid adoption of generative AI, we have formulated the Internal Guideline for AI Usage and disseminated it to all officers and employees, thereby strengthening measures against the information leakage risk and the risk of misinformation arising from the use of AI. We will persist in our efforts to strengthen and put in place our in-house systems and management approaches going forward.

(vi) Enhancing technological strengths

As technology to accurately convert analog information into data is the wellspring of the Group's competitive strengths and acts as a common platform underpinning growth of the various services, we believe it is important to continuously improve and strengthen this technology. We have achieved high-quality data conversion by combining various proprietary technologies developed in-house with human capabilities. More recently, we have been working to further improve efficiency by integrating our own proprietary generative AI into these processes.

b. Provision for bonuses

A reserve for the employee bonus payment is provided by recording the estimated amounts of the future payments attributed to the fiscal year under review.

(v) Accounting policy for retirement benefits

## **2. Notes regarding accounting estimates**

### *Recoverability of deferred tax assets*

(1) Amounts recorded in the consolidated financial statements for the fiscal year under review

|                     |                                    |
|---------------------|------------------------------------|
| Deferred tax assets | ¥1,709 million (before offsetting) |
|---------------------|------------------------------------|

(2) Other information to assist understanding of the content of estimates

Deferred tax assets have been calculated using estimates of the future timing at which taxable income will be generated and the amounts thereof based on business plans. In estimating taxable income, the Company makes estimates based on certain assumptions regarding external factors, such as the external business environment, and internal factors, such as the Group's budgets, particularly net sales and major expense items such as personnel expenses and advertising expenses.

### *Valuation of goodwill*

- (1) Amounts recorded in the consolidated financial statements for the fiscal year under review

Goodwill ¥866 million

- (2) Other information to assist understanding of the content of estimates

For asset groups including goodwill, the Company assesses whether there are any indicators of impairment. This assessment is based on whether events have occurred, such as continuing negative profit or loss or cash flows from operating activities, changes in business operations or other circumstances that significantly reduce the recoverability of the assets, or a significant deterioration in the business environment. With respect to goodwill arising from the acquisition of subsidiaries, the Company assesses whether there are any indicators of impairment, taking into account the extent to which actual profit or loss from operating activities has met the relevant business plans. If an indicator of impairment is identified, the Company determines whether an impairment loss should be recognized by comparing the total undiscounted future cash flows expected to be generated by the asset group including goodwill with its carrying amount. The undiscounted future cash flows used in this assessment are estimated based on future business plans incorporating assumptions concerning factors such as the growth rate of net sales. If it is determined that recognition of impairment loss is necessary, the carrying amount of that goodwill is reduced to the recoverable amount and the amount of the reduction is recognized as the impairment loss. In the fiscal year under review, an impairment loss of ¥231 million was recorded for an asset group including goodwill for which a deterioration in estimated future cash flows was recognized.

This estimate could be affected by such unpredictable changes as the business environment in the future, and if the conditions or assumptions underlying the estimate were to change, it may become necessary to recognize impairment loss in the consolidated financial statements in the following fiscal year.

### *Valuation of investment securities*

- (1) Amounts recorded in the consolidated financial statements for the fiscal year under review

Investment securities ¥397 million (unlisted stocks)

- (2) Other information to assist understanding of the content of estimates

Because investment securities (unlisted stocks) have no market price as they are mainly invested to create synergies with existing business and expand business domain, acquisition cost is used in the consolidated balance sheet amount. However, when the substantive value significantly decreases due to worsening of financial conditions of the issuing company, impairment accounting is applied, unless recoverability of the substantive value is deemed possible, backed by sufficient evidence. For shares and other securities purchased at a higher price than the price on the basis of net assets per share by reflecting excess earning power and other factors of an investee at the time of purchase, the Company first examines whether originally expected excess earning power has decreased or not. Then, the Company determines whether impairment accounting is applied or not by examining the substantive value taking into account excess earning power. When making a valuation of whether or not there is any decrease of excess earning power, the Company performs comparison between the business plan that was formulated upon investment and actual results, grasps the status of investment achievement, and considers the external economic environment, etc. to assess the feasibility of future business plans. In the fiscal year under review, a valuation loss of ¥50 million was recorded on two issues of unlisted stocks for which impairment of excess earning power was recognized.

In the event of changes in individual investment conditions due to market changes and unpredictable changes in economic and business underlying presumptions, impairment accounting may be applied in the consolidated financial statements in the next fiscal year.

## 6. Notes regarding financial instruments

### (1) Matters relating to financial instruments

Level 2 market price: Of the inputs relating to the calculation of observable market value, the market value calculated through the use of inputs relating to the calculation of market value other than the inputs of level 1

Level 3 market price: The market price calculated through the use of inputs relating to the calculation of non-observable market value

(2) Other information to assist understanding of the content of estimates

Because investment securities (unlisted stocks) have no market price as they are mainly invested to create synergies with existing business and expand business domain, acquisition cost is used in the balance sheet amount. However, when the substantive value significantly decreases due to worsening of financial conditions of the issuing company, impairment accounting is applied, unless recoverability of the substantive value is deemed possible, backed by sufficient evidence. For

shares and other securities purchased at a higher price than the price on the basis of net assets per share by reflecting excess earning power and other factors of an investee at the time of purchase, the Company first examines whether originally expected excess earning power has decreased or not. Then, the Company determines whether impairment accounting is applied or not by examining the substantive value taking into account excess earning power. When making a valuation of whether or not there is any decrease of excess earning power, the Company performs comparison between the business plan that was formulated upon investment and actual results, grasps the status of investment achievement, and considers the external economic environment, etc. to assess the feasibility of future business plans. In the fiscal year under review, valuation losses of ¥50 million and ¥345 million were recorded on two issues of investment securities (unlisted stocks) and one issue of shares of subsidiaries and associates, respectively.

In the event of changes in individual investment conditions due to market changes and unpredictable changes in economic and business underlying presumptions, impairment accounting may be applied in the financial statements in the next fiscal year.

### **Opinion**

We have audited the consolidated financial statements, which comprise the consolidated balance sheet, the consolidated statement of income, the consolidated statement of changes in net assets and the related notes of Sansan, Inc. ("the Company") and its consolidated subsidiaries (collectively referred to as "the Group"), as at May 31, 2026 and for the year from June 1, 2025 to May 31, 2026 in accordance with Article 444-4 of the Companies Act.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position and the results of operations of the Group for the period, for which the consolidated financial statements were prepared, in accordance with accounting principles generally accepted in Japan.

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan (including those applicable to audits of financial statements of public interest entities), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Other Information**

The other information comprises the business report and its supplementary schedules. Management is responsible for the preparation and presentation of the other information. The Audit & Supervisory Committee is responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the reporting process for the other information.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

## **Responsibilities of Management and the Audit & Supervisory Committee for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Audit & Supervisory Committee is responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the Group's financial reporting process.

## **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for the purpose of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit & Supervisory Committee regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit & Supervisory Committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and the details of any action to eliminate disincentives or any safeguards to reduce the disincentives to an acceptable level if they have been taken or applied.

**Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan**

We do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.
